Subject: City of Plummer Wastewater Treatment Plant: Noise, Odor and Visual Control Plan
Re-Submittal for Approval

Dear Mr. Gaffney:

This letter is in response to your comments on the City of Plummer Wastewater Treatment Plant: Noise, Odor and Visual Control Plan dated March 18, 2009. We have revised the document to reflect that the land acquisition by the City of Plummer is in compliance with Section 450.01.c of the IDAPA 58.01.16. Additionally, a log was created for tracking odor, noise and visually related complaints for the new facility and is included in Appendix II. In the event of an excessive number of odor related complaints stemming from the open treatment tanks and other sources, we have added discussion on potential DEQ requirements to cover all open basins and sources of odor during Phase II.

All DEQ comments have been addressed, please let me know if this report revision is acceptable. If you have any questions feel free to call me at 509-328-5139.

Sincerely,
USKH Inc.

Alan E. Gay, P.E.
Project Manager

Attachment: City of Plummer Noise, Odor and Visual Control Plan, March '09
